

Three wheels on his wagon...

EAGLE-eyed reader Chris Race, of Uppingham Road, Caldecott, took this picture of a combine harvester that lost its wheel in the village yesterday morning.

He called it "Three wheels on my wagon" and said: "I heard a noise at

about 10.15am and went to have a look at what was going on.

"Traffic was moving around it and it was fixed by about midday."

The harvest this year has been tough for farmers because of the wet weather.
